

# CALL FOR SUBMISSIONS 2022 AGEP SCIENCE TODAY BULLETIN

The goal of this bulletin is to highlight exciting, empirical research progress by AGEP members and to provide a venue to share this research with AGEP, MSU, and non-academic communities. AGEP students from all fields (STEM and SBE) are welcomed to submit a research brief. The submission should serve as a brief synthesis of your research and appeal to a broad audience. Research briefs should not exceed 750 words.

## IMPORTANT DATES

Submission Deadline:

**October 20, 2022**

Editorial Feedback:

**December 3, 2022**

Final Revision Deadline:

**December 10, 2022**

Publication Date:

**January 2023**

## SUBMISSION GUIDELINES

- Be written to a broad audience and appeal to non-researchers/scientist as well as individuals from different fields
- Provide a research synthesis that integrates a large body of research
- Be approved by your advisor
- Receive verification by all necessary parties that your brief does not violate any publication/copyright concerns (e.g. submissions based on work previously published in other venues)

### Frequently Asked Questions

#### **What if I want to submit this research to another journal?**

You should and it is recommended that you do. And, you may also submit to us. The bulletin does not have an ISBN so copyright infringement does not apply. If you are not using independent data, please be sure to let your advisor review your brief before you submit.

#### **Does this count as a publication?**

Yes. Your brief will go through a peer-review process by other scholars who have some knowledge in your general field of study. The Bulletin will be printed and distributed among the AGEP communities across the state and available for download on a publicly accessible website.

For more information, contact the Editor-in-Chief, Brandon Latorre ([brandonlatorre@gmail.com](mailto:brandonlatorre@gmail.com)), or ([msuagep@grd.msu.edu](mailto:msuagep@grd.msu.edu)) or visit us at <https://grad.msu.edu/agep/bulletin>
