

Be a CrossTalk Alternate!

Volunteer today!

The AGEP Community needs alternate STEM and SBE/Other presenters, please!

In the event that a scheduled presenter cannot make it, and you are planning to attend the meetings, we would like to put you down as an alternate. This is an opportunity for members who were not able to sign up for dates, yet want to be given greater consideration for the AGEP Scholar Award.

During the summer, The Graduate School hosts the Summer Research Opportunities Program (SROP), where anywhere between 20 - 50 undergraduate students visit Michigan State to be involved in compelling research. They also gather to attend the monthly AGEP Community Meetings, and we want to ensure we have a surplus of presenters to best represent our Community.

The summer meeting dates are **June 7** and **July 11**. If you are not sure where your discipline falls, ask us!
