Remarks from the Graduate School: (Tollefson for Thomas Jeitschko). Dean Tollefson reviewed the roles of UCGS within university, i.e., grading policy review; reviewing/recommending changes in graduate and professional academic programs; and consulting with the Provost on programs, instructional methods/evaluation, admissions, and program administration. UCGS members also consult with the Provost on resources related to grad and grad professional programs and students (See D2L Table 1 document). Therefore, modes of participation included program oversight, as well as advising and consulting with the Graduate School Dean as articulated in the D2L table.

This year, the UCGS committee will also review and make recommendations for the performance review of the MSU Research Integrity Officer, Dr. Jim Pivarnik. The academic dishonesty policies of the university need to be reviewed and updated. There will likely be increased professional education programs, and graduate education will need to be flexible, creating customized learning environments to respond to changing trends. UCGS should also review and make recommendations for addressing the mentoring goal of the MSU Strategic Plan.

Graduate School Policy Request. Dr. Tollefson brought to the meeting an admissions policy approval request from Dean Jeitschko. The written requested said:

> Programs can petition the Dean of the Graduate School to suspend/amend certain university admissions requirements in the process of implementing Slate. Upon review and consideration, the dean will consult with the implementation team and use her/his judgement to allow any request for modification to move forward for this year only and will immediately notify the chair of UCGS of any such action. UCGS can veto the permission and (provided it can be undone, given programming/implementation constraints) the dean will be over-ruled. Otherwise the exception is granted for the year during the switch to Slate.

Action: Tom Sharkey made a motion to approve Dean Jeitschko’s written policy request. Second. Discussion. The motion was approved.

Remarks from interim COGS president, Sara Hugentobler. Elections for the COGS president will be taking place soon, so the new COGS president will be identified.
Updates from the Graduate School: Dr. Suzanne Lang said there will be an internal search for a replacement for Dean Jeitschko who will be moving into a new position at the university. The search committee will be small and plans to move quickly. Gary Hoppenstand volunteered to represent UCGS on the Graduate School Dean search committee.
