- **Printable Formatting Guide (PDF)**
  Note the absence of List of Tables and List of Figures in the new formatting guide. These sections are generally not necessary and leaving them out helps quicken the review process. Also note that the Table of Contents is more useful when entries are limited to chapter-level headings or chapter-level headings and first-level subheadings.

To Copyright or not to Copyright?

- Copyright registration can be recorded with the U.S. Customs Service for international protection of your intellectual property.

- **DECIDE IF YOU WANT PROQUEST TO FILE A COPYRIGHT ON YOUR BEHALF BEFORE YOU COMPLETE YOUR INITIAL SUBMISSION. YOU CANNOT ADD IT AFTER THE FACT BECAUSE YOU NEED TO PAY FOR IT UP FRONT.**

- **NOTE:** ProQuest may only apply for a copyright on your behalf if you are the SOLE author of the ENTIRE document. If you co-wrote chapters of your document with someone else, ProQuest cannot apply for copyright on your behalf. You would need to do that yourself through the U.S. Copyright office.

REFERENCE PAGES

• Bibliography
• Appendix/Appendices

NOTE: APPENDIX pages are always last, regardless of being placed at the end of each chapter or at the end of the document. If you have an appendix, it is to appear AFTER the Bibliography.
What is an Appendix?

An Appendix is usually added to contain supplementary materials, illustrative materials, and/or original data or quotations too lengthy for inclusion in the text of the chapter or is not immediately essential to an understanding of the text.
The heading BIBLIOGRAPHY is to be centered at the top margin of the page and is to be in all capital letters.

After the heading, follow the spacing guidelines and list your first entry.

Bibliography entries are to be single spaced within entries and double (or 1.5) spaced once between entries.

You should format your entries in the way that is the convention in your discipline. We just ask that all your entries are formatted the same way to maintain consistency.

Before you begin
Before you begin, please be sure you have the following:

- Full text of the dissertation/thesis in PDF format. This must be one file. If your manuscript is in Word or RTF format, you can convert to PDF using the PDF Conversion tool. You also must embed fonts in the PDF. For tips on creating PDF files, see the PDF FAQs.
- Abstract
- Optional Supplementary files (images, data, etc.) that are an integral part of the dissertation/thesis, but not part of the full text.
- Advisor and other Committee Members' Names
- Subject Category. Please choose one to three subject categories from the Subject Category list that best describe your dissertation/thesis' subject area.

Note: If you need to finish your submission later (for instance, if you need to update your PDF file before uploading it), you can save your information and come back to finish. No information will be lost.

As part of the submission process, in addition to the Subject Category you will be asked to select the Degree Granting Unit/Program from a pull-down menu that lists those units approved by Michigan State University. This list is also available from the Michigan State University Graduate School website.

Also, you will be asked to select the degree that is being awarded. Michigan State University grants the following degrees: Master of Arts, Master of Fine Arts, Master of Human Resources and Labor Relations, Master of Music, Master of Science, Master of Urban and Regional Planning, and Doctor of Philosophy.
