

MSU Graduate School Forms Improvement

Results from 2021

In 2021, the Graduate School digitized and automated 4 forms using Microsoft Forms & Power Automate.

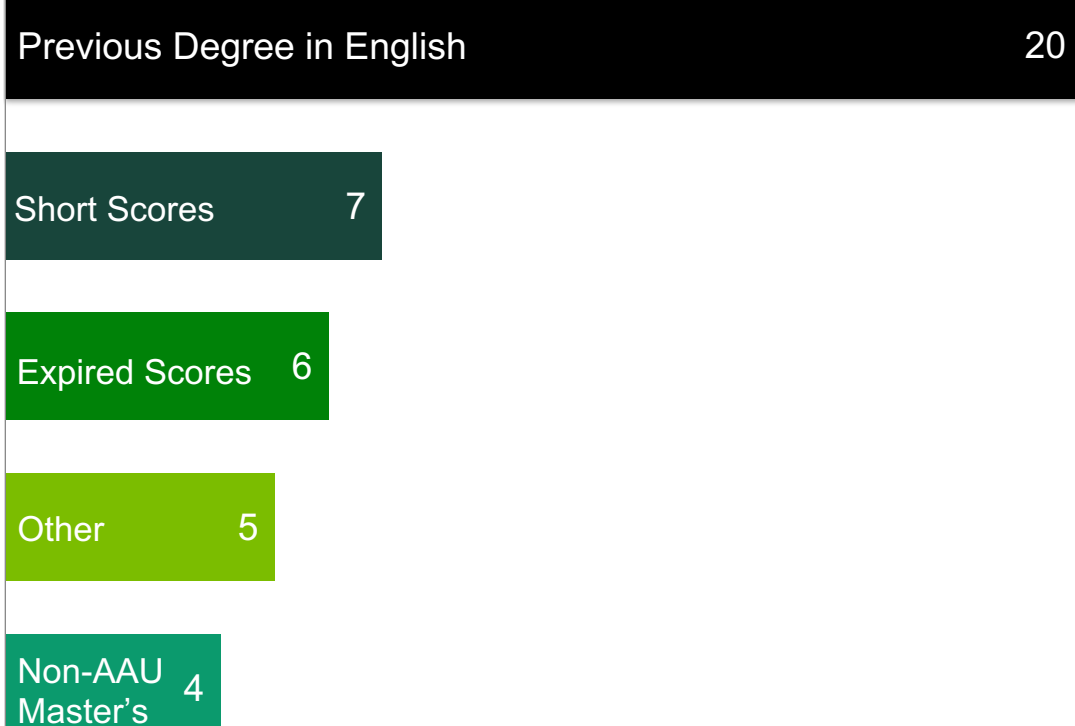

Approvals are now faster, easier, more reliable, more accessible, and more useful.

Automatic, clean data collection means we gain new insights into graduate education at MSU.

In Fall 2021, the most common reason a non-automatic English language waiver was requested was the student had a **previous degree instructed entirely in English.**

On average, graduate students add a specially-approved committee member **about the same time committees normally form.**

3 years
Doctoral

1 year
Master's
