

English Speaking Countries

In most cases, candidates who are citizens from the following countries need NOT be held for proof of English Language Proficiency (ELP). Language of instruction at institution attended must be English.

However, residence in one of the countries or attending school there does not necessarily presume English fluency—a student from China may be living in the U.K. **Please be careful to look for a place of birth as well as current country of residence/citizenship.**

- Anguilla
- Antigua
- Australia
- Bahamas
